Dear madam/sir,

Juan worked with us in a freelance capacity from August 2013 until the end of March 2014.

I originally worked alongside Juan at Wayra while he was working as the lead developer for Pollarize. I found Juan to be an extremely talented and knowledgeable developer and have since contracted him to work on Qudini in a freelance capacity. His approach to solving any technical task is highly professional and has been a key asset in enabling us to scale our application.

Yours sincerely,

Fraser Hardy (CTO)
